

## **393 CODE OF CONDUCT**

### **Background**

Canadian Rockies School Division has a responsibility to ensure that students and staff are provided with welcoming, caring, respectful and safe learning environments that respect diversity, foster a sense of belonging and promote well being. CRSD is committed to providing a learning and working environment free from bullying, harassment, discrimination and violence.

The Division expects employees, students, volunteers, parents, community members or any person who visits Division facilities to conduct themselves in a manner which promotes and protects the best interests of students, staff and colleagues. The Code of Conduct is intended to establish and maintain an appropriate balance between individual and collective rights, freedoms and responsibility in the school community. It establishes expectations, interventions and possible consequences for student behaviour.

Students will be held accountable for unacceptable behaviour and conduct that occurs both inside and outside of the school building or school day, if the conduct negatively affects a member of the school or interferes with the school environment. Behaviour may include, but is not limited to, the use of electronic means (e.g. social media).

Schools will develop a Code of Conduct that will address respect, harassment, discrimination, and bullying, along with possible interventions and consequences. Schools will respond with student interventions that are logical and restorative (where appropriate and possible). Consequences of unacceptable behaviour must take into account the student's age, maturity and/or individual circumstances. Support will be provided for any students who are impacted by inappropriate behaviour, as well as for students who engage in inappropriate behaviour. Although the code of conduct will address issues such as consequences for unacceptable behaviour, the primary focus of the Code of conduct is to help students learn how to address issues or disputes, develop empathy and become positive citizens both within and outside of the school community.

The responsibilities of students, staff and parents will be outlined in each school's Code of Conduct which will be aligned with the district Code of Conduct. A review and evaluation of each school's Code of Conduct will be in consultation with the School Council and/or community and is to occur on an annual basis. Each school's Code of Conduct must be publicly available on the school website.

### **Procedures**

The development of positive student behaviour is a shared responsibility between students, staff and parents.
