

505 LUNCH PROGRAM

The Division recognizes the desirability for all students to return to their own homes during the lunch period. However, the cases where students are transported to school and such transportation is not available during the noon recess, the Principal shall provide a suitable facility and adequate supervision for students to eat lunch.

The Division authorizes the Principal to establish lunch period supervision utilizing the services of paid lunchroom supervisors. Such a program must be financially self-supporting and can be funded through the establishment of a user fee. The Principal shall develop a budget identifying all costs associated with the program, and the necessary user fee.

Lunchroom supervisors report to the Principal and are responsible for the supervision, care and control of students during the lunch break.

Lunchroom supervision shall be in accordance with the school rules and in areas designated by the Principal. Students in grades kindergarten to six that are participating in the lunch period supervision program are not to leave the supervised areas.

Situations involving disciplinary matters shall be referred to the Principal, or the Principal's designate.

The hiring, assignment of duties, orientation, and supervision of lunchroom supervisors are the responsibility of the Principal.
