2024 Advocacy Priorities

CRPS students deserve the best! To bolster their continued achievement, our board champions:

Transformational Learning Opportunities

- **Future Ready Skills** - To ensure students are equipped with the essential skills, values, and knowledge to thrive in a rapidly changing world, increased investments in literacy, numeracy and future ready skills are necessary for all students - particularly those in vulnerable sectors.
- **Funding Security** - To safeguard students' future, the province need to commit to a resource allocation framework, like its Weighted Moving Average, to ensure smaller boards do not need to rely on external funding to support transformational learning opportunities.

Continuity of Learning

- **Provincial Partnerships** - To ensure students' continuity of learning, collaboration and active engagement among all provincial partners is needed to secure funding solutions that address the unique financial burdens like lack of housing and the cost of living in the Bow Valley corridor.

Strategic Well-Being Investments

- **Increased Investment** - To ensure students' ongoing success, increased investments in mental health and social-emotional well-being is crucial for creating safe and inclusive learning environments, fostering resilience, and accelerating academic achievement.
- **Coordinated Resources** - To meet the diverse needs of students, Education, Family and Community Support Services, and non-profit organizations, should coordinate their resources together to build a strategic support system for all students.
